Kaja Mohideen P

Chennai, India   kaja3402@gmail.com   +91 90035 99522

OBJECTIVE

To secure an entry-level position in a dynamic and growth-oriented organization where I can apply my technical skills, learn from experienced professionals, and contribute to real-world projects. I aim to enhance my knowledge in software development while being a reliable and collaborative team member.

PROFILE SUMMARY

Motivated and detail-oriented Computer Science student with a strong foundation in programming, web development, and UI/UX tools. Experienced in building functional projects using React and Firebase. A quick learner with a passion for creating user-friendly solutions and a keen interest in software development and technology trends.

TECHNICAL SKILLS

Languages: Java| JavaScript | SQL | PHP | HTML | CSS

Frameworks: React JS

Tools: Figma | StarUML | Microsoft Excel

EDUCATION

Rajalakshmi Engineering College	**Chennai, India**
BE Computer Science Engineering	*Graduation Date: May 2025*
Diploma PET Polytechnic College	**Chennai, India**
Computer Engineering	*Graduation Date: May 2022*

PROJECT

E-Commerce Platform for Used Games and Books
Technologies Used: React.js, Firebase

- Developed an e-commerce web application as part of a Software Engineering Concepts project to enable users to buy and sell used games and books.
- Implemented user authentication using Firebase, including Google sign-in, and managed real-time data with Firebase Firestore.
- Gained hands-on experience with React Router for navigation and learned best practices in building responsive, dynamic user interfaces.
